

Charging

Level 1 AC Charging*

- 120 volts AC
- 1.4 kW per hour (avg.)
- 0-100% in about 80 hours

Level 2 AC Charging

- 240 volts AC
- 9.6 kW standard
- 0-100% in about 12.5 hours

DC Fast Charging

- 50 kW standard
- 115 kW available
- 10-80% in as little as 42 minutes (115 kW)

*Not recommended for daily use.

Competitive Highlights*

Capability

- 273-mile all-electric range
- 113 kWh high-voltage battery
- Available 270-degree rear doors with 90-degree stop
- 4,100-pound towing capacity
- 11,023-pound GCWR

Features

- Intelligent Brake Regeneration
- Four individual regeneration braking modes
- Eco-Assist
- Wireless smartphone charging

Ownership

- Standard Rescue Assist
- Complimentary maintenance for four years or 100,000 miles
- Available Mercedes-Benz Vans Battery Certificate for up to 8 years or 185,000 miles

* Compared to the Ford eTransit, BrightDrop ZEVO 400, or Rivian Delivery 500.

2024 Mercedes-Benz eSprinter

Versatility and Flexibility

- 113 kWh high voltage battery
- 190 miles of all-electric range*
- Towing up to 4,100 pounds
- 9,370-pound GVWR

Available MBUX Infotainment

- 10.25-inch touchscreen display
- Locate charging stations with real-time status and pricing (when available)
- Schedule departure times / set preconditioning
- Wireless Apple CarPlay® and Android Auto™

Driving Modes and Regenerative Braking

- Three driving modes: Comfort, Eco, Max Range
- Five levels of regenerative braking
- Energy Saving Mode

Lithium-Iron Phosphate Battery

- Ideal for commercial vehicle applications
- Durable
- Eliminates the need for nickel and cobalt

*Based on full charge. Simulated range reflecting capability based on CAE analytical adjustments from tested vehicle, consistent with US EPA MCT drive cycle methodology (www.fueleconomy.gov/feg/pdfs/EPA_test_procedure_for_EVs-PHEVs-11-14-2017.pdf) at ALVW (Adjusted Loaded Vehicle Weight). The actual range varies with conditions as it depends on the individual driving style, road and traffic conditions, outside temperature, use of climate control/heating system, etc.

Navigation with Electric Intelligence

- Calculates the optimal route
- Includes charging stops
- Adjusts for real-time traffic and topography

Fast, Flexible Charging

- Level 2: 9.6 kW (0%-100% in approximately 12.5 hrs.)
- Standard 50 kW DC Fast Charging (10%-80% in 93 min.)
- Available 115 kW DC Fast Charging (10%-80% in 42 min.)

Mercedes me App

- Remote vehicle status
- Cabin preconditioning

Two Electric Motor Choices

- Standard: 100 kW (134 horsepower)
- Available: 150 kW (201 horsepower)
- 295 lb-ft of torque (both motors)

Mercedes me Charge

- Integrates multiple charging point operators into a single network (ChargePoint, EVgo, Electrify America)
- Access to more than 60,000 public charging points nationwide.
- Calculates charging cost and duration and shows charging history and cost.

Comprehensive Coverage

- Basic Limited Warranty: 3 years/36,000 mi.
- High-Voltage Battery Certificate: 8 years/100,000 mi.
- High-Voltage Components Warranty: TBD
- Limited Outer-Body Warranty: 5 years/100,000 mi.
